Assignment No	9
Title	1)Read 2)Write 3)Append 4)Rename 5)Delete
Objective	Learning and understanding
Roll No	MCA2649

1)Read,

2)Write,

3) Append

Source Code:-

```
var fs=require("fs");
fs.writeFileSync('input.txt','writing intoa file is '+'a  lengthy and critical process has to be done '+'synchronously');
var data=fs.readFileSync('input.txt');
console.log("Reading file before appending");
console.log(data.toString());
fs.readFile('input.txt',function(ferr,data)
{
    if(ferr) console.error(ferr);
    console.log(data.toString());
    console.log("End of Read");
}
);
console.log("Reading file before appending");
fs.appendFileSync('input.txt','\nappending data to the file, ');
console.log("file after appending");
fs.readFile('input.txt',function(ferr,data)
{
    if(ferr) return console.error(ferr);
```

```
    console.log(data.toString());
    console.log("End of Read");
}
);
```

Output:-

```
PS D:\MCA2649\WT2649> node callbackread.js
Reading file before appending
writing intoa file is a  lengthy and critical process has to be done synchronously
Reading file before appending
file after appending
writing intoa file is a  lengthy and critical process has to be done synchronously
appending data to the file,
End of Read
writing intoa file is a  lengthy and critical process has to be done synchronously
appending data to the file,
End of Read
PS D:\MCA2649\WT2649>
```

4)Rename

Source Code:-

```
var f=require("fs");
f.renameSync('input.txt','newFile.txt');
f.readFile('newFile.txt',function(err,data)
{
    if(err) return console.error(err);
    else{
        console.log("Reading file");
        console.log(data.toString());
    }
});
```

Output:-

```
PS D:\MCA2649\WT2649> node filereadwrite.js
PS D:\MCA2649\WT2649> node filereadwrite.js
Reading file
writing intoa file is a  lengthy and critical process has to be done synchronously
appending data to the file,
PS D:\MCA2649\WT2649>
```

5)Delete

Source Code:-

```
var f=require("fs");
f.unlinkSync('newFile.txt');
f.readFile('newFile.txt', "utf-8",function(error,data)
{
    if(error) return console.error(error);
    else{
        console.log(data);
    }
});
```

Output:-

```
PS D:\MCA2649\WT2649> node filedelete.js
[Error: ENOENT: no such file or directory, open 'D:\MCA2649\WT2649\newFile.txt'] {
  errno: -4058,
  code: 'ENOENT',
  syscall: 'open',
  path: 'D:\\MCA2649\\WT2649\\newFile.txt'
}
PS D:\MCA2649\WT2649>
```
