Assignment No	7
Title	Modules
Objective	Make use of named export, named import , and default export, constant variable
Roll No	MCA2649

Source Code:-

1. product.mjs

```
let numberSale = 0;
let totalSale = 0;

export function buy(buyer, item) {
    buyer.total = buyer.total + item.price;
}

export function sell(item) {
    totalSale = totalSale + item.price;
    numberSale = numberSale + 1;
    item.quantity = item.quantity - 1;

    return 0;
}

export { totalSale, numberSale };
```

2. index.mjs

```
import { totalSale, buy, sell, numberSale } from "./product.mjs";
import defval from "./secretindegrient.mjs";

let buyer = {
    name: "Satish",
    total: 0
};
```

```
let item = {
    price: 10,
    quantity: 100
};

console.log("Total Sale Till now = ", totalSale);

buy(buyer, item);
sell(item);

console.log("Buyer Name :",buyer.name);
console.log("Total expense of buyer = ", buyer.total);
console.log("Quantity of item left =", item.quantity);
console.log("Total Sale till now =", totalSale);
console.log("Number of item sold =", numberSale);
console.log(defval);
```

3. secretindegrient.mjs

```
let secretIngredient = "Salsa";

export default secretIngredient;
```

Output:-
